About Pope Resources

Pope Resources, a publicly traded limited partnership, and its subsidiaries Olympic Resource Management and Olympic Property Group, own or manage 210,000 acres of timberland and development property in Washington, Oregon, and California. We also manage, co-invest in, and consolidate two private equity timber funds, for which we earn management fees. These funds provide an efficient means of investing our own capital in Pacific Northwest timberland while earning fees from managing the funds for third-party investors. The Partnership and its predecessor companies have owned and managed timberlands and development properties for over 160 years.
